NOTICE

MEETING OF THE PUBLIC PROPERTY COMMITTEE (Streets/Municipal Center/Pool/Parks & Recreation) (Miller/Baker/Valentine)

A Public Property Committee Meeting of the Village of Freeburg will be held at the Municipal Center, Executive Board Room, on **Wednesday, October 15, 2008 at 6:30 p.m.**

PUBLIC PROPERTY COMMITTEE MEETING AGENDA

SWIMMING POOL:

- A. Old Business
 - 1. Pool feasibility study
- B. New Business

- A. Old Business
 - 1. Approval of September 17, 2008 minutes
 - 2. Streetscape – N. Main Street
 - 3. Swipe Card Access
 - 4. Culvert on Cemetery Road and also West Street
 - 5. Rogers home
 - 6. St. Joe's Curb/Gutter
 - 7. Drainage problem by Chad Rhutasel
 - 8. Industrial Park - Safe access onto Route 13 request
- B. New Business
 - 1. Electric and water meter bids
 - 2. Women's Club Halloween Parade request
- C. General Concerns
- D. Public Participation
- E. Adjourn

At said Public Property Committee Meeting, the Village Trustees may vote on whether or not to hold an Executive Session to discuss potential litigation [5 ILCS, 120/2 - (c)(11)]; the selection of a person to fill a public office [5 ILCS, 120/2 - (c) (3)]; personnel [5 ILCS, 120/2 - (c) (1) a.]; or real estate transactions [5 ILCS, 120/2-(c)(5)].

Public Property Committee Meeting
Streets/Municipal Center/Pool/Parks & Recreation
(Miller/Baker/Valentine)
Wednesday, October 15, 2008 at 6:30 p.m.

The meeting of the Public Property Committee was called to order at 7:00 p.m. on Wednesday, October 15, 2008, in the Municipal Center. Those in attendance were Trustee Tony Miller, Trustee Rita Baker, Trustee Corby Valentine, Trustee Kevin Groth, Trustee Charlie Mattern, Mayor Ray Danford, Village Administrator Dennis Herzing, Public Works Director Ron Dintelmann, Assistant Public Works Director John Tolan and Office Manager Julie Polson. Guests present: Gale Hake, Tim Pruett, John Meise and several residents.

PUBLIC PARTICIPATION: Chairman Miller said several residents were present to discuss their concerns about the proposed Harbor Pointe at Westview Lake plat and the effect it will have on the traffic on Kessler and Westview. Administrator Herzing advised when this first came to the Plan Commission, a discussion was held about following the Plan Commissions' recommendations for a through street that would go from Apple Street, through this development, the one directly to the north to Wolf Road and north of that to connect up by Parrish's to tie back into the highway. The Plan Commission asked Mr. Meise to make Sterling View Lane a 60' right-of-way and carry it to the north property line. Dennis then met with Gale Hake and the people that own the property to the north and they agreed to make a 60' right-of-way up to Wolf Road. This will create a north/south route through here to eventually limit the traffic on Westview. Dennis and Ron met with Tim Pruett to discuss improving the traffic in the short term. We asked them to consider some improvements at the curve where the traffic is going to come out of the proposed subdivision so there is a good, safe curve to tie in with Kessler Road. Kessler Road has been improved with curb and gutter up to just about the curve. Trustee Valentine said this area has been a concern of his. When that property was sold, he expressed his interest to the Village for them to work with the developer to improve the safety of that area when this property was developed. Dennis said this has been discussed in several Plan Commission meetings when they have worked on updating the comprehensive plan. The proposed plat as well as the proposed comprehensive plan map was provided for everyone's review.

Gale Hake advised Bozeman Lane could have been extended to Westview Drive but that was not done because of the gas line that runs through that area. They put the entrance on Kessler as close to the good part of Kessler that was possible. Tony said the concern was from Kessler Road going into Watersview Way. Dennis said maybe some improvement there could help the short-term problem. Tony advised everyone present Dennis and Ron are working on that with Rhutasel and John Meise. Al Hicks said he doesn't want the entrance to the subdivision coming out right at his driveway. A resident said maybe the entrance could be

moved more to the south. Gale said it used to be a 90 degree turn in that road. A three-way stop was suggested. John Meise asked about the \$1,500 impact fee collected from every lot. He asked if the impact fees could be used for the roads and improvements. Dennis advised it is primarily designed for the water and sewer infrastructure. Kevin Groth advised the Village has been talking about this problem area for years. Gale Hake pointed out Silverthorne was to be the north/south collector street from Freeburg-Douglas Road. Gale further said whenever the north/south collector street becomes available, Westview could actually be shut down. John Harryman asked if this is the time for the government to step up and continue the collector road north to Wolf Road. John also asked for a safe route from Lone Oak/Timberwolf to be considered for residents that live in that area to get into town. Tony thanked everyone who came out to the meeting and advised it is a work in progress and if any resident had any questions or suggestions to give Administrator Herzing a call. He further stated no recommendations will be made at Monday night's board meeting.

STREET:

A. OLD BUSINESS:

Further discussion was held with Gale, Tim and John. Ron said he and Dennis will continue to meet with Gale, Tim and John and see what they can work out with regard to a possible realignment of the road and 3-way stop.

1. Approval of September 17, 2008 minutes: *Trustee Rita Baker motioned to approve the September 17, 2008 minutes and Trustee Corby Valentine seconded the motion.* All voting aye, the motion carried.

2. Streetscape – N. Main Street: Nothing new.

3. Swipe Card Access: Nothing new.

4. Culvert on Cemetery Road and also West Street: Rhutasel finished the plans and submitted them to IDOT. Dennis said we don't have that much money in the budget for this project. It is estimated at \$111,679.00. We budgeted approximately \$50,000. Ron advised we could take it out of MFT reserve. The work probably won't be done until next year. Ron advised we would need to do the Cemetery Road culvert first. Dennis said we need to see how the actual bids come in, take some money out of reserves (approximately \$200,000) or through appropriation. We might want to push the Cemetery Road off until next year's budget.

5. Rogers home: The proposed contract will be presented at Monday night's board meeting in executive session. Ron confirmed this is a good fit for a shed.

6. St. Joe's Curb/Gutter: Dennis thinks this issue will go away. We did receive a request from St. Joe's for one hour limited parking, Monday - Friday from 8:00 a.m. - 4:00 p.m. on along the north side of White Street from the highway to Alton because the main entrance to the parish center will be on White Street. The

committee had no problem with the request. Dennis will review it with Mel and prepare the ordinance at the first meeting in November.

7. Drainage problem by Chad Rhutasel: Tony was by there and said the worst of the water was by the alley by Kevin's. Ron advised they shot the grade and the curb in front of Chad's and around the building is basically flat. Ron said they will go to the alley and take the curb and gutter out and get rid of the culvert. They will also clean the ditch.

8. Industrial Park - Safe access onto Route 13 request: IDOT states they don't see a problem. Dennis has forwarded their response onto Dennis Kaiser.

B. NEW BUSINESS:

1. Electric and water meter bids: Ron advised this was put in the packet for informational purposes.

2. Women's Club Halloween Parade request: *Trustee Rita Baker motioned to recommend to the full Board the Women's Club request for the Halloween Parade by granted and Trustee Corby Valentine seconded the motion. All voting aye, the motion carried.*

C. GENERAL CONCERNS: Dennis advised the Post Office has requested the Village to mow or mulch the leaves that blow over from the Village Park into the Post Office. The committee agreed to have the lawn service stay on a couple more weeks to take care of this request.

Corby appreciated the time given to the residents that came to the meeting tonight. He felt it was good for Gale, Tim and John to be present to hear the residents' concerns.

D. PUBLIC PARTICIPATION: See above.

SWIMMING POOL: A. OLD BUSINESS:

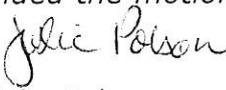

1. Pool feasibility study: The committee asked for the pool attendance for the last 5 years as well as passes sold.

B. NEW BUSINESS: None.

C. GENERAL CONCERNS: None.

D. PUBLIC PARTICIPATION: None.

E. ADJOURN: *Trustee Rita Baker motioned to adjourn the meeting at 8:25 p.m. and Trustee Corby Valentine seconded the motion. All voting aye, the motion carried.*

Public Property Committee Meeting
Streets/Municipal Center/Pool/Parks & Recreation
(Miller/Baker/Valentine)
Wednesday, September 17, 2008 at 6:30 p.m.

The meeting of the Public Property Committee was called to order at 6:37 p.m. on Wednesday, September 17, 2008, in the Municipal Center. Those in attendance were Trustee Tony Miller, Trustee Rita Baker, Trustee Corby Valentine, Trustee Kevin Groth, Trustee Steve Smith, Trustee Charlie Mattern, Mayor Ray Danford, Village Administrator Dennis Herzing, Public Works Director Ron Dintelmann, Assistant Public Works Director John Tolan and Office Manager Julie Polson. Guests present: Tom Carpenter, Chad Rhutasel, Janet Baechle, Bill Reichert and Kevin Post.

PUBLIC PARTICIPATION: Chad Rhutasel was present to discuss the drainage problems around his house. Dennis advised he and Ron looked at it and said it starts at the culvert in the alleyway behind Kevin's house, it floods and then goes around the corner on Alton Street. He thinks the problem may be on White Street and said the water should flow towards the highway. The culvert is small in the alleyway and backs up there, the water is ponding up in the high spot in the ditch by Kevin's house. Tony asked if it would be better to eliminate the culvert and curb it to the highway and Dennis agreed. The committee agreed to have the ditch cleaned out. It was agreed to have Ron and Dennis look at the situation again and come up with a more detailed plan with some rough costs. Kevin asked the committee to consider putting a curb in.

STREET:

A. OLD BUSINESS:

1. Approval of August 20, 2008 minutes: Trustee Rita Baker motioned to approve the August 20, 2008 minutes and Trustee Corby Valentine seconded the motion. All voting aye, the motion carried.
2. Streetscape – N. Main Street: Nothing new.
3. Swipe Card Access: Nothing new.
4. Drainage around Jerry Menard's home: Item requested to be taken off the agenda until documentation is received.
5. Culvert on Cemetery Road and also West Street: Ron and Dennis met with Rhutasel on Monday. Sid has the drawings done and he expects it to be submitted to IDOT and Core of Engineers around October 1st. Concrete box culverts will be installed at both locations which will provide a permanent fix.

6. Rogers home: Steve Wigginton is putting together a proposed agreement for the committee to review.

7. St. Joe's Curb/Gutter: Dennis said this may or may not happen. The people who originally requested this were not familiar with Bill's drawings and Dennis is not sure there is a lot of curb that needs replacement along the east side of Alton Street. He asked them to provide a more detailed request.

NEW BUSINESS:

1. Drainage problem by Chad Rhutasel: Discussed under public participation.

2. High school kids parking problem: Dennis said the problem has now moved farther out and Mrs. Favre has complained. Dennis asked the police to watch the situation as the kids seem to be parking closer to the intersections. Dennis asked the committee if they wanted anything else to be done. Rita can talk to Mel in the Police Committee meeting to see if he has any recommendations.

3. Industrial Park - safe access onto Route 13: A letter was signed by the business owners requesting "no passing zone" and "industrial park trucks entering and leaving highway" signs. Dennis will forward their request to IDOT.

4. Purchase of property by Library: This was provided for informational purposes. The school sold a 50 foot strip to the library with the stipulation that the library has to retain that as a street for Village use. Tony asked for this to be included in the Comprehensive Plan.

5. Kiwanis Club - Chalk it Up Request: The Kiwanis Club requested the use of Village barricades during this event. The committee granted their request.

6. Phillips Street: Dennis said a resident brought to his attention when the area by the railroad tracks meets Main Street was patched, there is now a rough area. Ron advised it was dug out and will be filled in when he gets another load of hot mix.

7. Lawn Mowing: Chris Lewis, our current lawn care service, has taken another job. His employee is taking over the company and has told the Village he could finish out the year at the same rate. He will provide an insurance certificate. Dennis talked to Brian Manion who said it is fine to switch to the new service to finish out the year.

GENERAL CONCERNS: None.

PUBLIC PARTICIPATION: Janet Baechle asked how much the high school charges for the kids to park there and Tony advised \$20.00 a year. Tony was contacted by Lisa Grau. Kevin explained the grassy area by her driveway that was not oil and chipped be taken care of. Kevin requested Ron to take a look at it.

**SWIMMING POOL:
A. OLD BUSINESS:**

1. Pool feasibility study: Bill Reichert of EWR and Kevin Post of Counsilman-Hunsaker were present to conduct the Review Presentation. A hard copy of the presentation is attached to the packet. The process included an evaluation of the existing facilities and area providers, research of area demographics, identification of potential user groups, developed three concepts and project cost estimates, estimate revenue potential and operating expenses and determination of cash flow. All of the prices quoted do not include demolition or land acquisition costs and do include inflation costs (1.5 years or 8%), contingency costs of 10% and indirect costs of 10%.

Out of the aquatic user groups, the competitive group said their needs would include a minimum six-lane competitive pool but would prefer a ten-lane competitive pool. The recreation group wanted to see shade, social aspect, interactive aspect for the children, toddler area, water park amenities. The wellness needs include warmer and shallower water for therapeutic use.

The first option is the hybrid outdoor pool which includes 78,000 square feet of water, six lap lanes, zero-beach entry and an interactive play area for the kids. The cost of this project would be \$4,800,000.

The second option meets the leisure and competitive needs but breaks it out into two separate pools. It includes a ten-lane competitive pool as well as a larger leisure pool with an interactive play area along with a current and vortex. The cost of this project would be \$7,210,000.

The third option has the indoor and outdoor pool along with an outdoor leisure pool. It has a six-lane 4500 square foot indoor multi-purpose pool with a shallow area and zero depth entry. This option includes a 6500 square foot outdoor leisure pool and outdoor competitive pool. The cost for this project would be \$14,700,000.

Capacity numbers were reviewed as well as the parking/site requirements, population, age, income, weather, attendance, group programming, per cap spending (fee schedule), revenue and expenses. Revenue projections ranged from \$153,335 in Option 1 to \$523,602 in Option 3 in 2008. The total expenses for Option 1 would be \$182,015 or 206,015 (which includes \$24,000 for the capital replacement fund) and \$756,325 or \$829,825 (which includes \$73,500 for the capital replacement fund) for Option 3. In summary, Option 1 would operate at a subsidy of \$28,680 or \$471,165 including the debt service; Option 2 would operate at a subsidy of \$38,452 or \$703,152 including the debt service; Option 3 would operate at a subsidy of \$232,723 or \$1,587,836 including the debt service. Kevin said the next step would be to look at the plans to see how they fit on the current land and possible sites for the future. Kevin also explained Option 3 does not include any building space for a community center. Charlie questioned the site

capability with Option 2 if we wanted to add an indoor building area at a later point in time. Kevin said we need to make sure we have additional land capable of adding onto any future expansion. Kevin said if you are looking at Option 3 to include an indoor recreation/community center, you would be looking at 14 acres. If you reduce the competitive portion of the pool under option 2, that would save approximately \$1,000,000 by going to a six-lane pool and \$500,000 by going to an eight-lane pool. Bill said there is nothing to preclude being able to add another pool or amenity to Option 1 at a later time. Kevin advised it is much less expensive to shallow a pool rather than make it deeper. Tony said he would rather see Option 2 and it be revised to an 8-lane competitive pool.

Steve questioned the funding source for the debt service and Kevin advised most communities main source is the bond issue. Kevin said when obtaining grants, the benchmark for a grant is \$1,000,000 because inflation will eat up a big part of that grant by the time the project is done. Rita asked Kevin if Freeburg agrees to one of the options and we have to do a bond issue for it, how soon can you get that on the ballot and how long will this take to build? Kevin advised if funding is in place, they can start the demolition at the close of one season and have it open by the beginning of the next season. Design would have to start by the end of this year, close the pool at the end of next season and be ready to open the following summer. It is already too late for a bond issue in the November election. We might have time to get one on the April ballot. Ron advised it will take a year to get the money. Kevin advised you could start with the design and Bill advised it can go on simultaneously while waiting for the funding to come through. Rita asked about the grant we currently have and Dennis advised we would have to go to DNR and get an extension on that money.

Dennis said the biggest obstacle he sees in these proposals is the debt service. With Option 1 (the least expensive), it is several times our total tax levy. You are going to be asking people to double or triple their taxes to support a new pool. Currently, our corporate general purpose tax levy is about \$100,000. Tony asked what the next step is and Kevin advised a public meeting needs to be scheduled and this information presented. The options will be revised to show an increase in the attendance fees, option 2 competitive pool will be reduced to 8 lanes, demolition costs will be added in and the electricity and water figures will be left in. Steve asked if there is an option to just renovate the existing pool and Kevin advised that would be Option 4 and last year's cost to do that was \$1,000,000. Charlie brought up the bond issue again and asked when are we going to broach that subject and that we need the park district funding. Tony said he would go to the next park board meeting.

- B. NEW BUSINESS:** None.
- C. GENERAL CONCERNS:** None.
- D. PUBLIC PARTICIPATION:** See above.

E. ADJOURN: *Trustee Rita Baker motioned to adjourn the meeting at 8:35 p.m. and Trustee Corby Valentine seconded the motion. All voting aye, the motion carried.*

STREETS COMMITTEE REQUEST

As the Parish Center moves to the final steps of completion, I am submitting this request for the consideration of the Streets Committee of the Village Board.

In our original plans of the building, we had designed slotted parking spaces along the north side of West White Street. At the Zoning Board meeting, while asking for a variance on the set back regulations for the building, the Zoning Board stated that we could not construct those parking spaces because they believed them to be a potential hazard.

Since it is very apparent that people coming to the school or parish offices will be parking along White Street (the main parking lot is closed to vehicles and used as the playground), we are requesting that the north side of West White Street (the block running next to the school) be established as

ONE HOUR PARKING MONDAY – FRIDAY 8AM – 4PM

It is our hope that this would ease the congestion of that street while allowing people to conduct business with the school or parish to have a place to park short-term.

Thank you for your consideration of our request. I would be willing to attend the Streets Committee meeting to answer any questions that they may have regarding this request. Should you have any need of additional information, please call my office.

Yours in Christ's service,

Rev. Mark D. Reyling

RECEIVED

OCT 10 2008

RE: Rt. 13 Safety Concerns

Dear Mr. Herzing:

Thank you for your letter concerning access to Illinois Route 13 from Commerce Drive, Industrial Drive, and Press Road, specifically the extension of existing No Passing Zones and the addition of advanced warning signing.

The Department utilizes the Manual on Uniform Traffic Control Devices (MUTCD) when considering the placement of pavement markings and signing. This federal document can be viewed on the internet at <http://mutcd.fhwa.dot.gov>. The primary factors in the placement of no passing zones and advanced warning signing is Minimum Passing Sight Distance (MPSD) and the statutory speed limit. According to Table 3B-1, the MPSD for a 55 mph speed limit is 900 feet. Field investigation of the subject location revealed sight distances on Illinois Route 13 both northbound and southbound well in excess of 900 feet; therefore, the extension of the existing No Passing Zone to the south is not warranted. Further, due to the adequate sight distance to Illinois Route 13 from each side road and limited truck traffic, existing roadway signing is adequate based on Department policy. We will continue to monitor this location and reevaluate our position should conditions change. The information on no passing zones can be found in Chapter 3, Section 3B.02 of the manual. The information on advanced truck warning signs can be found in Chapter 2, Section 2C.40 of the manual.

The Department must work within the parameters set forth in the MUTCD to ensure the effectiveness of roadway signing. It has been determined in numerous studies that excessive signing on roadways creates a general "disregard" of all signing by the traveling public. We constantly monitor the state highway system for safety. Typically we analyze crash data to determine problem areas. Currently, the subject section of roadway is not an area of frequent accidents. We will continue to monitor this location and address any issues that may arise.

Thank you again for your letter and please contact Mr. Jeff Abel, Traffic Operations Engineer, at 346-3283 if you have any question or require further information.

Sincerely,

Mary C. Lamie, P.E.
Deputy Director of Highways
Region Five Engineer

RE: Response from IDOT

Dear Mr. Kaiser:

We received a response and explanation from IDOT last Friday on the highway safety concerns expressed by businesses in the Industrial Park. Unfortunately, it appears that IDOT does not intend to take any action based on Federal guidelines and the lack of a history of frequent accidents in the area. A copy of their response is enclosed.

If you have any questions, please feel free to contact my office.

Sincerely,

Freeburg Women's Community Club

Dionne Gerfen & Barb Bauman,
Co-Chairperson - Halloween Parade

3815 State Rt 15
Freeburg, IL 62243

RECEIVED

OCT 09 2008

October 6, 2008

Village of Freeburg
14 Southgate Center
Freeburg, Illinois 62243

Dear Board of Trustees:

I am writing this request on behalf of the Freeburg Women's Community Club in order to reserve the Village Park and the portion of South Belleville Street, from the park to Carl L Barton Elementary School, for Sunday, October 26th, 2008. As in the past, we will be sponsoring the Halloween parade for children in the community. The parade route will be the same as in previous years. It will begin at the Village Park at 5:00pm and continue down South Belleville Street, ending at the grade school gym. All of our activities will conclude by approximately 7:00 pm.

We appreciate the continued support and cooperation you have shown us in the past and look forward to the festivities.

Sincerely,

Barb Bauman
Co-Chairperson, FWCC Halloween Parade 2008
