MEETING OF THE PUBLIC PROPERTY COMMITTEE (Streets/Municipal Center/Pool/Parks & Recreation) (Niebruegge/Smith/Pruett)

A Public Property Committee Meeting of the Village of Freeburg will be held at the Municipal Center, Executive Board Room, on **Wednesday, June 19, 2013 at 6:30 p.m.**

PUBLIC PROPERTY COMMITTEE MEETING AGENDA

SWIMMING POOL:

A. Old Business
   1. Baby Pool Top Layer Issue

B. New Business
   1. Accident Report
   2. Caregiver Pass

****

A. Old Business
   1. Approval of May 15, 2013 minutes
   2. Safe Routes to School
   3. Welcome to Freeburg sign at north end of town
   4. MFT
   5. Drainage Problem Areas
   6. Shady Lane dispute
   7. Cemetery Road
   8. Picnic tables at the park
   9. Street banners
   10. Vehicle inventory
   11. E. Emily Curbing Request
   12. Pickers on Wheels

B. New Business
   1. Huelsman Request
   2. Crew Worker Position

C. General Concerns

D. Public Participation

E. Adjourn

At said Public Property Committee Meeting, the Village Trustees may vote on whether or not to hold an Executive Session to discuss potential litigation [5 ILCS, 120/2 - (c)(11)]; the selection of a person to fill a public office [5 ILCS, 120/2 – (c) (3)]; personnel [5 ILCS, 120/2 – (c) (1)]; or real estate transactions [5 ILCS, 120/2-(c)(5)].

Public Property Committee Meeting
Streets/Municipal Center/Pool/Parks & Recreation
(Niebruegge/Smith/Pruett)
Wednesday, June 19, 2013 at 6:30 p.m.

The meeting of the Public Property Committee was called to order at 6:41 p.m. on Wednesday, June 19, 2013, in the Municipal Center. Those in attendance were Chairperson Elizabeth Niebruegge, Trustee Steve Smith, Trustee Dean Pruett, Trustee Matt Trout, Mayor Seth Speiser, Village Clerk Jerry Menard, Public Works Director John Tolan, Village Administrator Tony Funderburg and Office Manager Julie Polson. Guests present: Bobby and Georgia Huelsman and Janet Baechle.

Trustee Steve Smith motioned to amend the agenda in order to hear Public Participation first and Trustee Dean Pruett seconded the motion. All voting aye, the motion carried.

Bobby and Georgia Huelsman presented their case to the board regarding the poor storm water drainage affecting their property. They had made previous attempts to the Village in 2000 and 2008 to have the situation addressed and stated there was no resolution to their problem. Georgia said the culvert is in worse condition than before and believes the stormwater easement encroaches on their property. She stated the plat that was recorded is not how it really looks out there. Mayor Speiser asked if a bigger culvert will fix the problem and Public Works Director John Tolan said no, a second culvert may be the answer. John acknowledged the culvert can't handle the water flow. He also said if we do add a second culvert, we need to see if that will put the water onto the neighbor's land across the street. John will talk to Rhutasel and have Harryman get them the flow calculations.

Janet Baechle said the trash trucks are tearing up the alleys and asked if they could collect trash from in front of the homes. John said it is easier to maintain the alleys and advised the Village has started oiling and chipping them on a yearly basis through the MFT program.

POOL: A. OLD BUSINESS:

1. Pool: The baby pool opened today and there were a ton of kids there. John met with Davinroy and EWR regarding the outstanding issues. He would still like to have a startup manual for the pool. He said the swim team is happy with the items they wanted addressed. We have applied for a $19,000 St. Clair County Parks grant for shade structures at the pool. Tony is looking into umbrellas that can be set in the concrete.

B. NEW BUSINESS:

1. Accident Report: We had three accident reports included in the packet. Of note, an ambulance was called to the pool at the parent's request when an umbrella snapped and hit her child in the arm. Child was examined at the pool and no further medical attention was required.

2. Caregiver Pass: Julie brought up the idea of a caregiver pass to make it easier on families with babysitters to afford the pool. She suggested $20 for a caregiver pass. Obviously the caregiver could only use that pass when bringing the kids to the pool.

STREETS: A. OLD BUSINESS:

1. Approval of May 15, 2013 minutes: *Trustee Steve Smith motioned to approve the May 15, 2013 minutes and Trustee Dean Pruett seconded the motion.* All voting aye, the motion carried.

2. Safe Routes to School: Administrator Funderburg stated HM Backhoe should be starting the work any day now. John reported the hydrant has been moved out of the way. Tony and John met with Karla Thies about a culvert on her property. If we move the culvert from the original location, we would need to obtain an easement from Karla. She would pay for the culvert to the end of her property. They will work on this. Steve said he hasn't heard anything on the other SRTS project. Julie said someone from IDOT was out checking on underground tanks in the area.

3. Welcome to Freeburg Sign: tony said Phillips could build the sign but it does not include any lettering and is very plain looking. He found a company where the sign better represents Freeburg and is more aesthetically pleasing. He will go back to Phillips and show them what the other company can do and see if Phillips can match it.

4. MFT: The acceptance forms for the low bids were in the packet for approval. John said the dates for oiling and chipping have been scheduled for August 21st and 22nd.

   Trustee Dean Pruett motioned to recommend to the full Board Beelman Logistics' bid in the amount of $8.49 per ton for the CA6 Crushed Stone, $9.99 per ton for the CA16 Seal Coat Aggregate CA16/CM16 Limestone and $12.24 per ton for the Crushed Stone CA11/CM11; Mike Maedge Trucking's bid in the amount of $2.0719 per gallon for the Bituminous Materials HFE150 be approved and Trustee Steve Smith seconded the motion. All voting aye, the motion carried.

5. Drainage Problem Areas: John said we reworked Emily Street and it is in much better shape. Janet asked about Alton Street and John said it is on the list to do. Seth brought up the area on Railroad and John will take a look at it.

6. Shady Lane Dispute: Tony is getting the deeds from the County tomorrow and we can start working on getting the land transfer done. John said they trimmed the trees and laid some rock.

7. Cemetery Road: Frank gave Tony the contact information for the County employee handling this.

8. Picnic tables at the park: We will check the budget to see if we can get these ordered from Kohnen.

9. Street banners: Seth is going to bring this up at the next Chamber meeting to see if they want to work with us on this project.

10. Vehicle inventory: Julie needs to work on adding the rest of our inventory, i.e. backhoe, sewer machine, etc.

11. E. Emily Curb Request: See number 5 above.

12. Pickers on Wheels: Item can be taken off the agenda.

B. NEW BUSINESS:

1. Huelsman Request: See public participation above.

2. Crew Worker Position: Tony said we are getting together Monday to review the applications that were submitted.

C. GENERAL CONCERNS: Trustee Trout is concerned about the sidewalk on Vine Street. His wife and child took a nasty spill due to the poor condition of the sidewalk. John said a couple of years ago, the Village started replacing sidewalks and try to do the most critical ones first. We do have more money in this year's budget to repair sidewalks. Tony said there are grants available for ADA sidewalks. We'd like to start with the inner part of town and work our way out from there. Elizabeth has been out walking and making notes of sidewalks that need attention.

Village Clerk Menard asked if we have the pool employees drug tested. At the present time, we do not. If we are going to test the part-time employees, they should be included. We may need to send out a consent form for any employee that is under 18 years old.

Trustee Pruett asked about placing stop signs at Emily/Vine and Emily/Cherry. We will take the request to the next Police committee meeting.

D. PUBLIC PARTICIPATION: See above.

E. ADJOURN: *Trustee Steve Smith motioned to adjourn the meeting at 7:56 p.m. and Trustee Dean Pruett seconded the motion.* All voting aye, the motion carried.

Public Property Committee Meeting
Streets/Municipal Center/Pool/Parks & Recreation
(Niebruegge/Smith/Pruett)
Wednesday, May 15, 2013 at 6:30 p.m.

VILLAGE ADMINISTRATOR
Tony Funderburg

VILLAGE TREASURER
Bryan A. Vogel

PUBLIC WORKS DIRECTOR
John Tolan

POLICE CHIEF
Stanley Donald

VILLAGE ATTORNEY
Weilmuenster Law Group, P.C

The meeting of the Public Property Committee was called to order at 6:30 p.m. on Wednesday, May 15, 2013, in the Municipal Center. Those in attendance were Chairperson Elizabeth Niebruegge, Trustee Steve Smith (6:58 p.m.); Trustee Dean Pruett, Trustee Mike Blaies, Village Clerk Jerry Menard (7:25 p.m.), Public Works Director John Tolan, Village Administrator Tony Funderburg, Zoning Administrator Gary Henning, Pool Manager Scott Schulz and Office Manager Julie Polson. Guests present: Lee and Kathy Luckett and Lynn Watts.

Trustee Dean Pruett motioned to amend the agenda in order to hear Public Participation first and Chairperson Elizabeth Niebruegge seconded the motion. All voting aye, the motion carried.

Lee and Kathy Luckett were present to list their concerns regarding Shady Lane. They would like to see the land swap move forward so the lane and properties can be correctly reflected on the plat. John read Dennis' outline of what needed to be done to the Lucketts. We will get the process started to get the land swapped. Lee wants the Village to maintain the lane and John said we will take care of it. Lee also commented about the dumping out there and John said we will also look at that.

Lynn Watts put in a request to have a curb installed in front of her home. She summarized the problems on E. Emily. She said the Village was out working on her neighbor's property and stated our workers dug out part of her yard. She said if the Village won't put a curb in, she wants a culvert. John advised her it's a very flat area, but he will look into installing a culvert for her.

POOL: A. OLD BUSINESS:

1. Pool: Scott has three pool parties booked. He would like to get an article in the paper about all of the upcoming events at the pool. John will talk to Corby about having a movie at the pool. Tony would like to work with the swim team about putting up a sign for them and also a clock. Scott is concerned about the shade out there. Julie said we applied for a parks grant for shade structures and Tony will be working on this issue as well. We received an application from Samantha Wilke for a lifeguard position.

   Trustee Dean Pruett motioned to recommend to the full Board Samantha Wilke be hired as a lifeguard pending successful completion of her lifeguard certification and Chairperson Elizabeth Niebruegge seconded the motion. All voting aye, the motion carried.

John said we have a big issue with the baby pool. The floor is extensively cracked and he called in Davinroy, Doug Biscayne and the guy that installed the floor at the pool today. The installer the floor said it was put in wrong and it will be replaced. The surface wasn't prepped correctly. It is going to be air blasted out this week and a new floor installed next week. John was told by the installer that the life expectancy on the floor is 3-4 years and it will have to be acid washed each year. The bottom line is with all of the issues John has with the pool, we are going to have to hold onto the $50,000 retainer until the issues are resolved. John said the striping of the lot is being done tomorrow. Trustee Smith questioned the age of the kids being allowed in the pool unsupervised. The committee discussed this and decided to raise the age limit to 10 years old.

Trustee Steve Smith motioned to recommend to the full Board the age limit for unsupervised children at the pool be increased to ten (10) years old and Trustee Dean Pruett seconded the motion. All voting aye, the motion carried.

B. NEW BUSINESS: Taken care of above.

STREETS: A. OLD BUSINESS:

1. Approval of April 15, 2013 minutes: *Trustee Steve Smith motioned to approve the April 15, 2013 minutes and Trustee Dean Pruett seconded the motion.* All voting aye, the motion carried.

2. Safe Routes to School: We have a request from IDOT to pay Rhutasel's invoice #4 for the second SRTS project in the amount of $880.57.

Trustee Steve Smith motioned to recommend to the full Board we pay Rhutasel & Associates' pay request #4 in the amount of $880.57 and Trustee Dean Pruett seconded the motion. All voting aye, the motion carried.

3. 709 Saxony lane request for culvert: Nothing new. Item can be taken off the agenda.

4. Welcome to Freeburg sign: Julie will forward Pat Netemeyer's emails to Tony so he can work on this project.

5. MFT: John will call IDOT to get the dates scheduled for the oiling and chipping.

6. Procedure to Request Flags to be Displayed: Nothing new. Item can be taken off the agenda.

7. Drainage Problem Areas: John said Dennis gave him direction on how to proceed with Netemeyer's suggestions.

8. Shady Lane Dispute: Discussed above.

9. Ditch behind home at 606 W. High: John said this can be taken off the agenda.

10. Cemetery Road: Tony will talk to Frank about this.

11. Picnic tables at the park: Jerry said Scott is going to go out and look at this.

12. Street banners: Julie will work on getting the banners ordered. She did not get a good response on the ad banners. Tony offered to talk to the businesses about this when he goes out to introduce himself.

13. Vehicle inventory: Julie needs to work on adding the rest of our inventory, i.e. backhoe, sewer machine, etc.

14. Spring Clean Up: John said everything went pretty well. He said Pickers did hold things up looking for scrap and we will work on that next year. Item can be taken off the agenda.

15. Sportsman's Club Request: John said this can be taken off the agenda.

B. NEW BUSINESS:

1. Memorial Day Ceremony: The American Legion would like to use the Village Park for their Memorial Day Ceremony.

Trustee Dean Pruett motioned to recommend to the full Board the American Legion's request be approved to use the Village Park for their Memorial Day Ceremony on Monday, May 27, 2013 and Trustee Steve Smith seconded the motion. All voting aye, the motion carried.

2. E. Emily Curb Request: See Public Participation above.

Trustee Smith asked about Pickers on Wheels and Attorney Manion he prepared an opinion letter that said any dumpster is going to need to be screened or fenced regardless of what it is being used for. He also said the dumpster abutting a residential area needs to be screened from the back and side views.

C. GENERAL CONCERNS: None.

D. PUBLIC PARTICIPATION: None.

E. ADJOURN: *Trustee Dean Pruett motioned to adjourn the meeting at 7:43 p.m. and Trustee ~~Mike Blaies~~ Steve Smith seconded the motion.* All voting aye, the motion carried.

Julie Polson

Julie Polson
Office Manager

Freeburg Village Board
14 Southgate Center
Freeburg, IL 62243

February 9, 2013

Village Board Members,

This letter is in reference to the article posted in a recent edition of the Freeburg Tribune where the Village of Freeburg is offering assistance in repairing storm water issues within the Village.
We are asking the village to reconsider previous requests in August of 2000 and June 2008 to address the storm water issue on Country Side Lane and replace the culvert that runs beneath the street with a larger, oval or a side by side. Some background information is provided:

Background:
In 1989 Pre-Annexation and Annexation agreements were approved by the village board allowing phased development of Sugar Creek Estates. Submitted for approval were plans for the various phases, the layout of the lots, lakes, streets, etc. The village approved these annexation agreements and stipulated in the ordinance that all 'extensions of the sewer system and all right-of-way, sanitary sewers onsite, force-main, lift stations, storm drains and storm sewers....shall be constructed in accordance with development plans to be submitted by owners and approved by the Village, pursuant to village codes and ordinances'. Within the plans, a lake was to be put in directly behind our property but the lots on the paperwork were laid out differently than they are today. A review of the village files revealed incomplete information as to what happened after these ordinances were approved but the development effort agreed upon in the ordinances did not proceed as approved. It appears that Floyd Schlueter, the developer was able to re-plat the remainder of the development with lots all along Wolf Road and three on Country Side Lane leaving the remaining land behind our property undeveloped.

Our basement took in water on Memorial Weekend 2008 because the culvert did not have the capacity needed to allow all of the storm water that funnels to it to discharge in sufficient time to prevent a back up. This culvert, installed when the ground was strictly agricultural takes in water from the north and south of Countryside Lane which includes at least 10 homes along Country Side Lane and Wolf Road whose lots have been developed to slope storm water runoff to the front and back of their property. In addition all of the undeveloped property behind our property dumps water into this same culvert.

We paid an engineer to do a assessment of the area contributing water to the culvert and his determination was there is too much land channeling run-off to one outlet and the culvert cannot sustain heavy, extended rainfalls. The last couple years we have spent thousands of dollars mitigating the situation by re-grading, installing rip-rap and building a berm around our basement walkout. We take great pride in our property and mow an additional 1 1/2 acres of the vacant land around us to include road frontage in order to preserve the aesthetics of our home and the subdivision. While the berm

protects our basement, it detracts from the aesthetics of our property and subdivision and makes evident an obvious problem.

The culvert is in poor condition with the bottom almost completely rusted out so not only would the replacement fix the storm drainage issue, it would protect the street from a future potential collapse since the culvert is sure to continue rusting through.

Please let us know if there are any additional questions or information needed to make an informed decision. We appreciate the time and consideration of the board in this request.

Residents Can Seek Village Assistance for Drainage Improvements

An ordinance was approved last week by the Freeburg Village Board that will now allow residents to seek assistance with storm water drainage improvements on private property. In the past, the Village typically would not correct drainage problems on private property.

Residents may file a request with the Village Clerk describing the specific nature of the improvements requested. The Village will only provide assistance with those projects that the Village Board deems to be in the best interest of the community. These will generally be projects that will correct drainage problems that have the potential to cause significant damage to the public infrastructure. The Village will not accept all projects.

The Village will also provide financial assistance with any projects it approves, when funds are available. The Village will pay the engineering fees on projects it undertakes and will also fund half the cost of the construction.

In other action... The Village Board approved Trustee Mike Blaies' motion to repair the 2001 electric bucket truck at a cost not to exceed $12,000. Repairs to hoses and bearings located inside the inner boom of the vehicle will be undertaken by Drake Scruggs, of Springfield, Ill.

•The Board approved a payment of $1,308.45 to Harris Electrical Contracting, of Freeburg, for running an electric service connection to the salt dome. The Village is splitting the cost with the Freeburg Township. The Village and the Township share expenses at the salt storage dome located on Hill Mine Road.

•Approval was granted by the Board to award a bonus of $3,500 to Assistant Public Works Director John Tolan.

More Than Loaves This Saturday

The More Than Loaves community luncheon will be held this Saturday, February 2, at 12:00 noon in St. Paul's United Church of Christ basement, 7 North Belleville Street. This luncheon is free to anyone and the basement of the church is handicap accessible.

State Raises the Bar

The State has made changes to its Illinois Student Achievement Test (ISAT) making it difficult for some students and schools to make the grade in 2013. Superintendent Tomi Diefenbach reported Monday, January 28 at the Freeburg Community Consolidated School District 70 Board of Education meeting that new, more stringent scoring standards, as well as new content, will make it more challenging for students to meet or exceed standards on this year's test. In addition, the test will include more questions aligned with the "common core standards", a single set of clear educational standards for kindergarten through 12th grade in language arts and mathematics that 45 states have so far adopted. The uniform standards are more closely aligned with college and workforce expectations.

Mrs. Diefenbach explained that the higher scoring standards may mean that on average, 15 or more additional students in each grade may fall below the "meets or exceeds" standards in reading and math on the test. That would also mean that it will be more difficult for the District to meet AYP (annual yearly progress), a predetermined score that demonstrates measurable yearly improvement on its ISAT scores.

Superintendent Diefenbach also announced that area superintendents have met to begin planning next year's school calendar. Although it is still preliminary, the Districts are considering either an early start date of Wednesday, August 14 for students or a slightly later date of Monday, August 19. The calendar would also likely include a week-long spring break in late March

Freeburg Atrazine Settlement

The Village of Freeburg announced that it was recently awarded nearly $169,000 from an Atrazine class action law suit. The money is part of a settlement agreement reached between lawyers for a colation of public water systems and Syngenta, the makers of the corn herbicide, Atrazine.

Atrazine, one of the most widely-used herbicides in the United States, has been found in ground and surface waters due to runoff from farm fields. The funding is designed to help provide financial relief to water systems associated with the removal of Atrazine from water systems.

Freeburg officials wanted to publically recognize Smithton Village Trustee Joel Boeving for

See ATRAZINE on page 2A

ORDINANCE NO. 1450

Baker Cayes

AN ORDINANCE AMENDING TITLE IX, CHAPTER 95 OF THE REVISED CODE OF THE VILLAGE OF FREEBURG, ST. CLAIR COUNTY, ILLINOIS (Streets and Sidewalks)

BE IT ORDAINED BY THE VILLAGE PRESIDENT AND VILLAGE BOARD OF TRUSTEES OF THE VILLAGE OF FREEBURG, ST. CLAIR COUNTY, ILLINOIS, THAT:

TITLE IX, CHAPTER 95: STREETS AND SIDEWALKS is hereby amended to add a new Section 95.82 STORM WATER DRAINAGE IMPROVEMENTS as follows:

95.82 STORM WATER DRAINAGE IMPROVEMENTS

(A) *Request in writing.* Any person owning property within the village who desires village assistance with storm water drainage improvements on their property shall file a request with the Village Clerk giving the location of the property and the specific nature of the improvements requested.

(B) *Cost to owner.* If funds are available and the Village Board approves the request, the property owner shall pay one-half of the cost of the construction and, thereafter, the project will be completed by the village. The cost of construction shall not include engineering fees; these shall be paid by the village.

(C) *Approval of the Village Board.* The approval of requests for storm water drainage improvement projects by the Village Board shall be contingent upon the determination that the proposed project will correct drainage problems that have a significant potential to cause damage to the public infrastructure of the village. Approval is at the sole discretion of the Village Board and shall be contingent upon the availability of funds, priority of projects, and determination that the project is in the best interest of the village.

(D) *Easement Required.* For approved projects, the property owner shall grant the village a temporary construction easement covering any areas on private property which must be entered onto or disturbed by the project. The temporary easement shall expire upon completion of the project. Maintenance of any portion of the completed project situated on private property shall remain the responsibility of the property owner.
