Streets and Water

Mosquitos and Zika Virus: The Zika virus is spread primarily through the bite of an infected mosquito. To control mosquitos outside your home, make sure all screens are free from tears. Once a week, empty and scrub, turn over, cover or throw out any items that hold water like tires, buckets, birdbaths or trash containers. Use an outdoor flying insect spray where mosquitos rest in dark, humid areas. For more info, go to the Community, then Health tab on our website.

Police & Public Safety Fundraiser

It is once again time for the Annual Golf Scramble! This year's event will be held on July 16th at the Clinton Hill Golf Club. We are committed to enhancing our law enforcement program and the safety of the Freeburg community through improving protection, education, information and community involvement. This event was created on behalf of the Police Department to better protect and give back to the community it serves. Generous support has made our tournament a huge success in the past. We respectfully ask for your support of this event. Please visit our website under Government/ Dept. then Police Department for the golf entry form, hole sponsorship or a dinner sponsorship.
