## Lead Service Line Replacement Form

PWS ID Number: 1630600

Name: Village of Freeburg

In August 2021, The State of Illinois passed Public Act 102-0613, the Lead Service Line Replacement and Notification Act. This Act requires the Village of Freeburg to complete and maintain an inventory of all water service line materials. Where any lead or galvanized (requiring replacement) service lines are found, the Village is required by Public Act 102-0613 to replace the service line from the main to either the first inside shutoff valve or 18 inches inside the residence, whichever is shorter **at no cost to the property owner.**

**Your property has been identified to have either a lead or galvanized (requiring replacement) water service line.** As part of this replacement, there could be a disruption at the point of entry into your home. This may involve disruption to flooring or drywall. Although there is no cost to the property owner to replace the service line, **the Village will not be responsible for any cost to repair or restore any drywall, flooring, or any other repairs beyond concrete foundation/slab repairs at the new water service point of entry.**

Please complete the information below so arrangements can be made to inspect the existing service connection in the residence and the replacement can be scheduled. If you wish to reject the replacement of the water service on your private property, please complete the IDPH Waiver of Complete Lead Service Line Replacement Form.

I \_\_\_\_\_ (print name) hereby state that I have been informed by the Village of Freeburg that my residence, located at \_\_\_\_\_, has a lead or galvanized (requiring replacement) service line. I was informed of the hazards of lead in drinking water and I agree to allow the Village of Freeburg to replace the water service line on my private property.

**I understand, acknowledge and agree to the following statement: Pursuant to section (LL) of Public Act 102-0613, that by allowing the Village of Freeburg and its contractors to install and replace my lead service line, that to the extent permitted by law, I am agreeing to hold the Village of Freeburg harmless for all damage to property when installing or replacing the lead service line. Any issues are to be addressed directly to the contractor performing the work, or their insurance agency. The Village's contractor will provide a one-year warranty. I must also allow the Villages's personnel and contractor to take before and after photos inside my property as part of receiving a new water service line.**

Homeowners signature: \_\_\_\_\_ Date: \_\_\_\_\_  
Homeowners phone number and e-mail: \_\_\_\_\_

Please contact Village Hall at 618-539-5545 with any questions.
