

Coronavirus Pandemic: Whole-of-America Response

Attached you will find today's Daily Briefing Points for the Whole-of-America response to the coronavirus (COVID-19) pandemic. These briefing points include Topline Messages, as well as information By the Numbers; Supply Chain Task Force; FEMA and Department of Health and Human Services Response; and Guidance from Federal Agencies.

Topline messaging includes:

- On **May 14**, [President Trump announced](#) continued efforts to ensure a fully stocked, resilient national stockpile and the strong domestic industrial base needed to confront COVID-19.
 - These efforts will include a plan to restructure the Strategic National Stockpile, implanting lessons learned from recent pandemics.
 - Additionally, the President signed an executive order providing authority to ensure America is producing critical goods necessary to build up our strategic stockpiles and reduce dependency on foreign supplies.
- As of **May 14**, FEMA, HHS, and the private sector combined have coordinated the delivery of or are currently shipping: 92.7 million N95 respirators, 133.7 million surgical masks, 10.5 million face shields, 22.5 million surgical gowns, and 989 million gloves.
- FEMA has procured and delivered 4.1 million swabs and 2.3 million media so far in the month of May. In support of the White House Task Force's testing initiative, FEMA is supporting the procurement of specimen collection supplies to supplement the supplies states and healthcare providers are procuring from the private market.
- As of **May 14**, CDC, state, and local public health labs and other laboratories have tested more than 9.5 million samples.
 - HHS and FEMA have expanded items supplied by the [International Reagent Resource \(IRR\)](#) to help public health labs access free diagnostics supplies and reagents.
 - As of **May 12**, the FDA has issued 95 individual [emergency use authorizations \(EAU\)](#) for test kit manufacturers and laboratories, including 12 antibody tests and 1 antigen test.
- On **May 15**, FEMA [updated information on the process used](#) by the National Resource Prioritization Cell. The cell uses data from FEMA, HHS and CDC to develop recommendations to ensure distribution of the right resources to the right places at the right times. The resource prioritization process will now be conducted every seven days.

FEMA

- On **April 27**, President Trump unveiled the [Opening Up America Again Testing Overview](#) and [Testing Blueprint](#) designed to facilitate state development and implementation of the robust testing plans and rapid response programs described in the President's [Guidelines for Opening Up America Again](#).
 - On **May 11**, [President Trump announced](#) additional efforts to ensure that every state, territory and tribe has the resources they need to meet their testing goals for opening up America again.
