PUBLIC WORKS: TREE TRIMMING

As part of the Village of Freeburg's continuing effort to deliver safe and reliable power, our electric crews will perform vegetation management in your area in the near future. This can include aerial or manual trimming, removal of vegetation, mowing, application of environmentally-safe herbicides and inspections as necessary in and around your property. Since the timing of this work is contingent on the weather, it is hard to predict exactly when we will be on your property. It may be several months before we can begin and complete the necessary trimming and inspection. If you have any specific concerns, please contact Village Hall at 618/539-5545 or submit a work order request on our website at www.freeburg.com. On the home page, click on the Village Services tab located on the left column of tabs.
