

To prepare businesses and employers to implement the new safety guidelines and to bring many residents back to work, the State of Illinois has developed this business toolkit complete with signage, training checklists, and other resources to ensure business and activities are conducted in accordance with the latest and greatest public health recommendations.

Phase 3 guidelines span 10 main industry categories. Each set of guidelines includes a common set of guidelines that are expected and encouraged among all employers and activity types, as well as workplace and program-specific guidelines.

If you have other specific questions or comments about how Phase 3 affects your business or employees, please feel free to get in touch with DCEO.

For direct support, contact our Business Hotline Monday through Friday at **1-800-252-2923**, or email at: **ceo.support@illinois.gov**
